## ➤ EDUCATION

University College Cork, Co. Cork, Ireland

2023.9 – 2024.8

MSc in Design and Development of Digital Business – First Class Honours

- Core Courses: Database Analysis and Design (SQL, ERD, ETL), Data Analysis and Visualization (Power BI), Business Modeling and Decision Analysis, Web Development (HTML, CSS, JavaScript, React.js, Vue.js, PHP).
- Focused on database management, data visualization, and leveraging digital tools to solve business challenges.

HUBEI ENGINEERING UNIVERSITY, China

2014.9 – 2018.6

BSc in Economics (International Economics and Trade)

- Core courses: Finance, Calculus, Accounting, Advanced Mathematics
- Focused on quantitative analysis and economic modeling, providing foundation in data-driven decision-making.

## ➤ WORK EXPERIENCE

HR - Ivoclar Vivadent(Shanghai) Trading, Shanghai, China

11/2021 – 04/2023

- Conducted data entry and cleaning in SAP to maintain precise employee records and enhance database usability.
- Analyzed HR performance metrics using Excel and Power BI, delivering reports to support data-driven decisions.
- Led HR-related project management initiatives, coordinating cross-functional teams for process optimization.
- Implemented new HRIS features and automated reporting processes to improve operational efficiency.
- Managed timelines and deliverables for internal HR projects, ensuring alignment with company goals.

## ➤ PROJECTS

Final Project University students' entrepreneurship platform - StudentPreneur

5-8/2024

- Designed and developed from scratch using PHP/JavaScript/MySQL stack.
- Implemented data collection system for user survey responses.
- Created interactive dashboards visualizing key metrics.
- Achieved user satisfaction through iterative UX improvements.

BYOD database design and analysis

4/2024

- Designed a 3NF ER model and implemented a secure database for the LI-BOYD system.
- Developed SQL scripts to populate and manage the database, ensuring access control compliance.
- Analyzed data for security and operational efficiency, identifying key improvement areas.

PowerBI Project –Survey Data Analysis

1/2024

- Conducted ETL processes, transforming and loading complex survey data into Power BI.
- Built interactive dashboards to visualize key metrics like average salary and gender salary gaps.
- Delivered actionable insights to stakeholders through comprehensive visual reports.

## ➤ Certification

AWS - Certified Cloud Practitioner

05/2025

- Proficient in core AWS services (EC2, S3, IAM, Lambda).
- Understand cloud security, architecture, and cost management.
- Certified knowledge of AWS fundamentals and best practices.

Oracle - Cloud Infrastructure & AI Foundations

05/2025

- Gained foundational knowledge of Oracle Cloud Infrastructure and AI/ML services.
- Covered topics such as AI model lifecycle, OCI services for machine learning, and data processing pipelines.
- Practical understanding of deploying simple AI use cases using Oracle Cloud tools.

FreeCodeCamp - Responsive Web Design

01/2024

[https://freecodecamp.org/certification/Jinghan\\_Yang/responsive\\_web\\_design](https://freecodecamp.org/certification/Jinghan_Yang/responsive_web_design)

- Completed comprehensive projects on responsive web design using HTML, CSS, and JavaScript.
- Built fully functional, mobile-first websites to enhance usability and accessibility.

## ➤ SKILLS SUMMARY

**Data Analysis & Data Entry:** Power BI, Excel, Data Processing

**Programming & Database Management:** SQL, Python, ERD, ETL, SAP

**Project Management & HR Systems:** HRIS, workflow automation, cross-functional coordination, timeline management

**Tools & Platforms:** SAP, Salesforce, Tableau, Android Studio
